TDEM Asking Residents to Fill Out Damage Reports

Wichita Falls, Texas – The Texas Division of Emergency Management is asking anyone who sustained damage from storms on Thursday, August 10, 2023, to fill out a damage report online.

All residents have to do is go to damage.tdem.texas.gov and complete a damage report. This will help the state determine how widespread the damages are and what possible state assistance will be available to residents and business owners.
