Stage 1 Drought Watch Triggered

Wichita Falls, Texas - As of October 21, 2024, the combined lake levels of Lake Kickapoo and Lake Arrowhead have fallen below 65%. According to the City of Wichita Falls Ordinance, that level has automatically triggered the Stage 1 Drought Watch.

Watering hours are now restricted to the following:

- Even numbered addresses can only water on Monday and Thursday.
- Odd numbered addresses can only water on Tuesday and Friday.
- The allowed hours on the designated day are from Midnight to 10:00am or 7:00pm to Midnight.

Hand-held hose, soaker, and dripper irrigation are exempt from the above restrictions.

If a home is served by a water well, it is required by law to be registered with the City of Wichita Falls Public Works Office. An online form is available at [wichitafallstx.gov](https://www.wichitafallstx.gov) or residents can call directly at (940) 761-7477.

Water customers can also register a free account on the City's MyH2o and track residential or commercial water usage. Residents can access that service by clicking [here](#).
