November 19, 2019

### **Scheduled Water Outage and Detours at Martin Luther King Boulevard between Bonner and Flood Streets**

The Water Distribution Division will be conducting an emergency repair of a water main leak on Martin Luther King Boulevard, between Bonner and Flood Streets, starting today, Tuesday, November 19th.

This emergency repair will require the closure of the two Northbound lanes of Martin Luther King Boulevard. During this time the street department will be detouring traffic around the excavation area to protect the workers and the public. Additionally, businesses and citizens may experience a temporary disruption of their water supply in the area around the intersections of Martin Luther King Boulevard and Bonner and Flood. Due to the emergency nature of the repair, there is not a current estimate on the amount of time that it will take to repair the water leak and the subsequent repair of the street.

Please take this road closure/detour into account when traveling Northbound on Martin Luther King Boulevard. We appreciate your continued understanding and patience as we continue to maintain the water distribution system. For more information you may contact the Public Information Office at 761-7401, or the Water Distribution Division at 761-4333.
