Health District Services Update

Wichita Falls, Texas – The Wichita Falls-Wichita County Health District will be offering limited services as soon as Tuesday, January 3, 2023. Water damage from a broken pipe and damage to the district’s electrical system caused the district to suspend services just after Christmas.

Vital Records will be open to the public January 3, 2023 at the Health District building. Some services may not be available, however staff will be taking record requests and filling them as quickly as possible.

Immunizations are expected to be offered again Friday, January 6, 2023 at the Health District Building. State regulations on vaccine temperatures must be met first.

Environmental Services along with Animal Services continue normal operations. Any payments that need to be made to Environmental Services can be made at this time at Animal Service at 1207 Hatton Road.

Women Infants and Children (WIC) will continue to provide services. The best way to contact the WIC Clinic is to text via the secure texting system at (940) 247-7688.

For current WIC participants services will be held remotely. The same procedures that were utilized during COVID will be in place. WIC participants will need to respond to text messages and answer phone calls regarding current and upcoming WIC appointments. Upon appointment completion, participants will be scheduled a time to drive up to the WIC bus at the Health District to have benefits loaded to their EBT cards.

Anyone interested in becoming a WIC participant can text (940) 748-2788 or apply online at TexasWIC.org
