Sewer Repair to Close Major Street

Wichita Falls, Texas- The Wichita Falls Utilities Department will be repairing sewer lines within the Wastewater Collections System after damage caused by fiber optic contractors.

This repair work is scheduled to begin at 8:30 am on Monday, May 22, 2023.

The Sewer Rehab work will be performed at the intersection of 5th Street and Broad, between the Central Boys Club and the vacant hotel. This repair work will require the closure of 3 lanes of 5th Street and the far right-hand lane of Broad. (A map is attached on page 2 of this release)

During this time drivers will need to exercise caution while traveling in this area to protect themselves and the City workers that will be in the street repairing the infrastructure damaged by fiber optic contractors.

We appreciate your continued understanding and patience as we continue to maintain the wastewater collections system for the community.

For more information, you may contact the Public Works Office at (940) 761-7477, or the Wastewater Collections Division at (940) 397-2545.
