Broadband Development Public Meeting at MLK Center

Wichita Falls, Texas- The Texas Broadband Development Office (within the Comptroller of Public Accounts Office) will be hosting a public meeting on Thursday, August 3, 2023, from 5:30-7:30 pm, at the Martin Luther King Center, 1100 Smith Street, Wichita Falls, Texas 76301. The public is encouraged to register for the event at <http://bit.ly/TxBDOPublicMeetings>.

The BDO is in the process of developing the Texas Digital Opportunity Plan. The plan will serve as a roadmap for achieving reliable and affordable broadband access, high-quality device access, digital skills training, and cybersecurity awareness. Hearing directly from communities across the state about broadband needs will help the BDO develop a robust plan.

With an internet connection, citizens can have access to telehealth appointments, work from home, or video chat with friends and family. Having access to affordable and reliable high-speed internet services and having the skills to use them can increase the quality of life and opportunity for Texans.
